Interactive Kinect Art
"Is that me?"

Kelli Ireland

CS 2310 – Fall 2011
Input from the Kinect
Find relevant points
Use relevant points
To project a different image
Like maybe a skeleton
Or a ghost
Or maybe you could be a video game character
Final product

• Goal of 4 simultaneous images (minimum)
  – Hopefully 1 by demo time

• Interactive art
  – Kinect set up near a projector that creates life-size images
  – Image library chosen ahead of time, appropriate to venue
  – If all goes well, it'll be on display at CS Day in the spring!
