OVER
Please comment on any aspects that you found particularly satisfactory or unsatisfactory.

1. Material covered (what you expected or wanted from the course).

   I was looking for the basics of a new language, and I feel confident now.

2. Assignments/exams (clarity, size, difficulty, grading standards).

   Quizzes and exams were a bit unfair, but there's no solution. I don't understand how I could ace papers to grades. Tests.

3. Text and/or handouts (readable, helpful?).

   Text was almost unreadable.

4. Other (pace, instructor's style, etc.).

   Great job! I enjoyed everything, from the many examples in the group class.
