Using “ArgRewrite”

Task 1. View analyzed results

There are three options in the “File” manual, as the server has been configured, select “Load” to input your username. Press “confirm” and you will get the overview of the revisions you make.
Task 2. Upload your essays for analysis

Step 1. New users will be assigned new usernames, follow steps in Task 1 and input your username. If the username is new, you will get the overview page with blank information.

Step 2. Click “let’s rewrite” to start editing

Step 2a) Copy the first draft of essay into “Draft 1” and the second draft of your essay into “Draft 2”.
Step 2b). Click “File”->”Upload”, and confirm your username
Step 2c). Wait until the analysis is done and a window will pop out indicating the success of analysis. Click “OK” in the popped window, and the analyzed results will be shown in the overview page.
Task 3. Making new revisions

Step 1) Click “Let’s rewrite” and access the details of your essay and revisions. Edit in “Draft 3” to write your new essay.

Step 2). Click Draft 1 or Draft 2 or directly click on the “Revision Map” to see the changes you have made.

Step 3) After writing draft 3, click “File”->”Upload” to upload your new essay. After the analysis is done, click “OK” on the popped window to see the new analysis.
In a photo from the set, Angie wears a brown suede jacket, gray slacks, and white T-shirt. The woman's age appears to be 25 in the picture. In one shot, the woman appears to be a young girl, while in another, she is seen as an adorable baby girl on her shoulders. Editing the sentence in the second paragraph to show difference: I just wrote another sentence.

Using “Revision Correction” tool

Task 1. Load revision document

Step 1. Click “File”->”Load from Server” and enter the username of the essay you want to review.

Step 2. Wait until the information is loaded. (This might take 2-10 seconds).
Task 2. Change alignment

Step 1. Click “change alignment” button in the middle to correct the alignment errors

Step 2. Click on the list to align sentences, when finished, click “Confirm new alignment”

Task 3. Correcting “revision purpose” errors.

Step 1. Select the sentence of the revision you want to correct. The selected sentence will be highlighted.
Step 2). Select the checkbox for the correct purpose. Click on any other sentence and you will find that the color for that sentence is changed.
Task 4. Upload to server

Click “File” -> “Upload to Server”. Once finished, you will receive the alert message indicating whether the correction has been successfully uploaded.
